Carlota

Product Designer

🌍 Online Portfolio

14 years designing complex B2B SaaS products. Specialised in growth, onboarding, and conversion flows. Track record at Typeform, Pitch, Remote, and Welltech of making technically complex systems feel simple — and tying every design decision to measurable outcomes.

👨‍💻 EXPERIENCE

Welltech
Dec 2025 – Present

Senior Product Designer, Growth team

- Redesigned PGMS, an internal drag-and-drop funnel builder enabling non-technical growth teams to run onboarding experiments without engineering dependency — reducing reliance on engineering for every experiment cycle.
- Led UX research and iterative testing across critical workflows; partnered with PMs, engineers, and stakeholders to define scalable funnel-building frameworks aligned to broader product strategy.

Remote
Jul 2023 – Jan 2025

Senior Product Designer, Employee Lifecycle

- Designed a bulk-upload framework across 5 product areas, eliminating manual one-by-one workflows for enterprise HR teams.
- **Reduced amendment time by 87%** and **resolved 358 support tickets** through inline compliance validation.
- Achieved **72% feature adoption** and **+38 NPS** across 5 iterative design cycles validated with HR operators and downstream teams.

Pitch
Jul 2020 – Feb 2023

Design Lead, Growth team

- Owned growth design strategy and roadmap, contributing to Pitch reaching 1M teams — sharing redesign drove a **71% lift in workspace invitations.**
- Redesign insights directly informed a full monetisation model revamp, reshaping free and paid tier structure to drive upgrade intent.

Typeform
Jun 2018 – Jun 2020

Senior Product Designer, Builder

- Led end-to-end redesign of the form builder — eliminating 14 context switches, **reducing task time by 81%** and **lifting task success from 3/10 to 9/10.**
- Designed a question type icon and colour system, resolving root-cause confusion identified in usability testing against 3 competitors.
